

Trazado de letras gigantes del alfabeto.

Introducción

¡Hola compi!

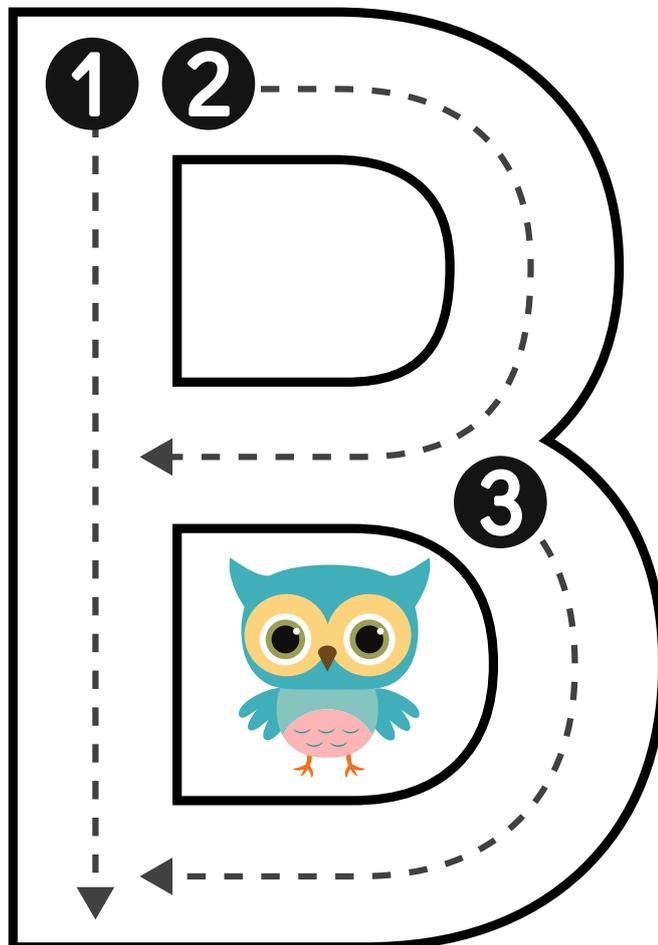

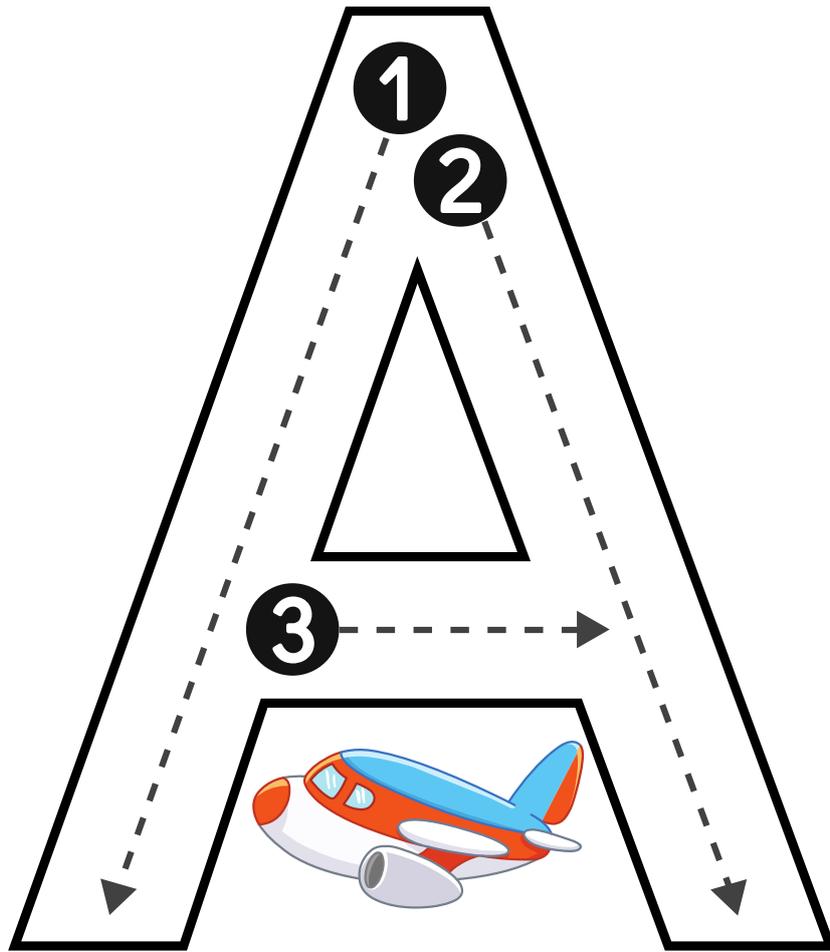

Te traigo un recurso con el que no sólo se divertirán los niños sino que es algo distinto a lo convencional ya que no se trata de las típicas fichas de lectoescritura.

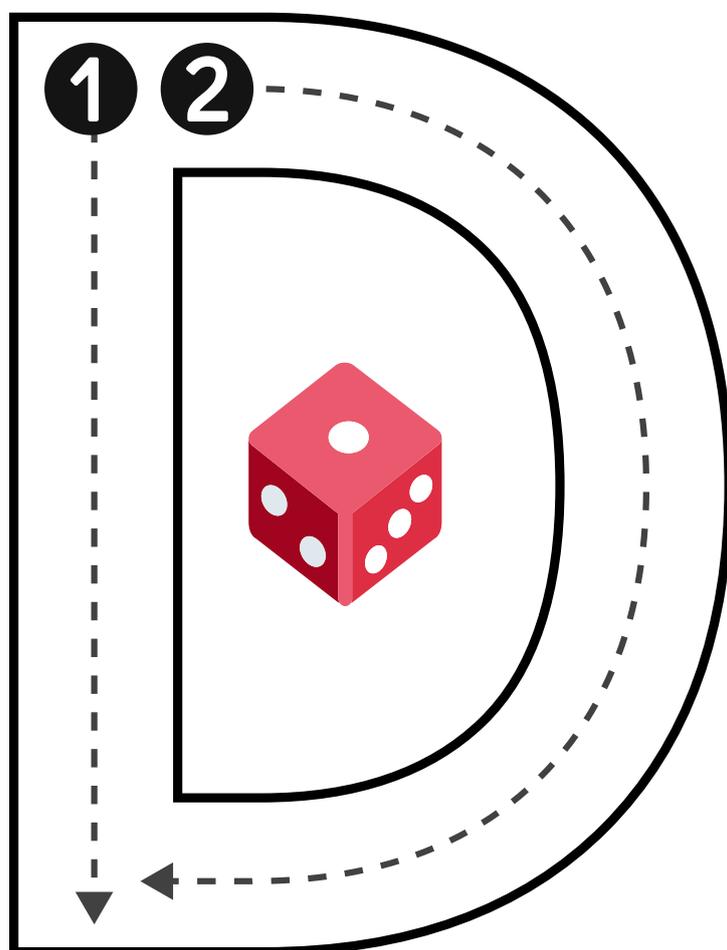

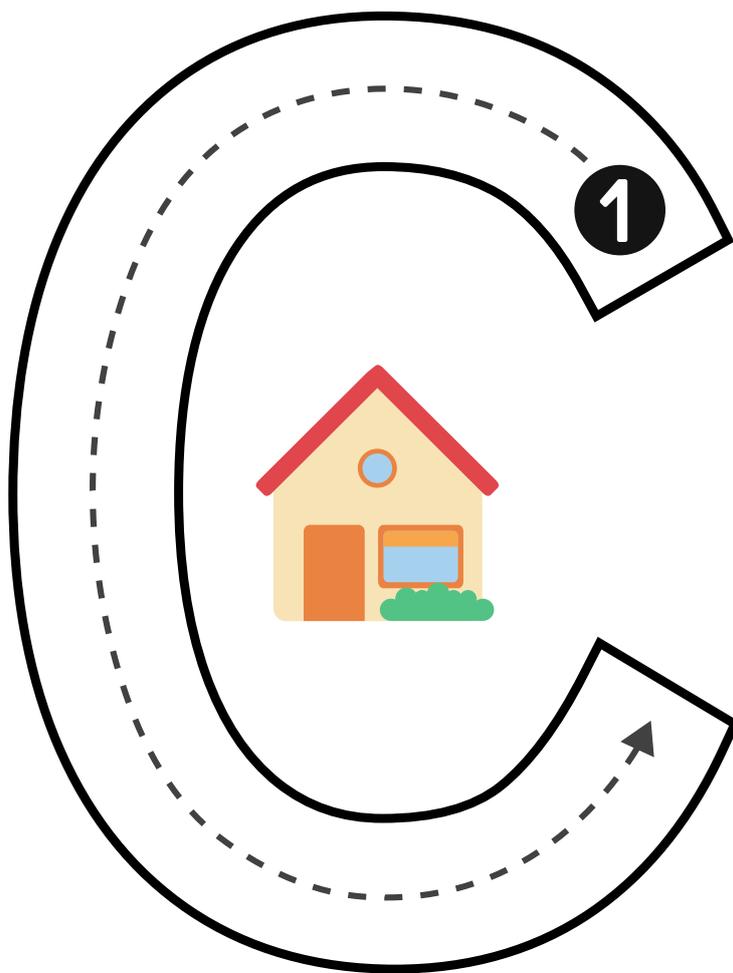

Se trata de las letras del alfabeto en tamaño gigante que puedes imprimir y plastificar para utilizar con rotuladores tipo vileda, por lo que las podrás reutilizar tantas veces como quieras ya que son borrables.

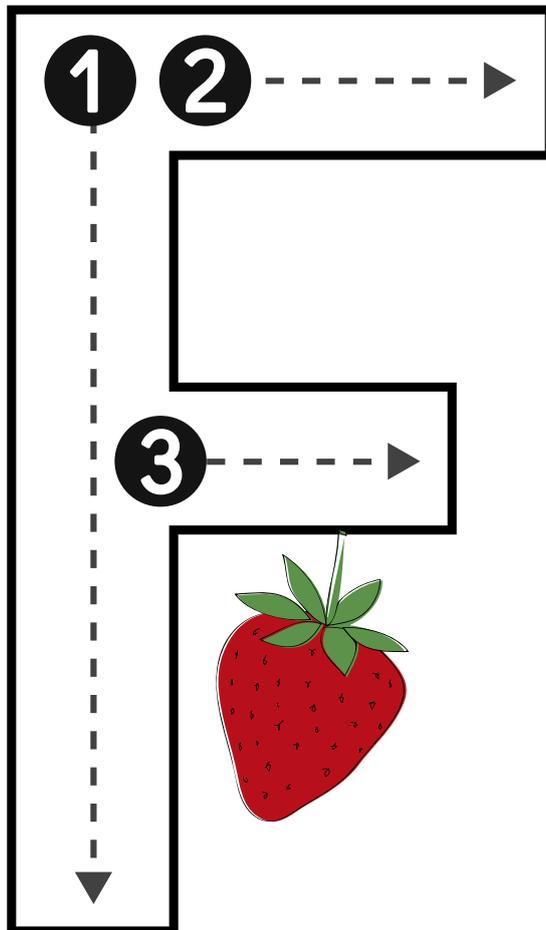

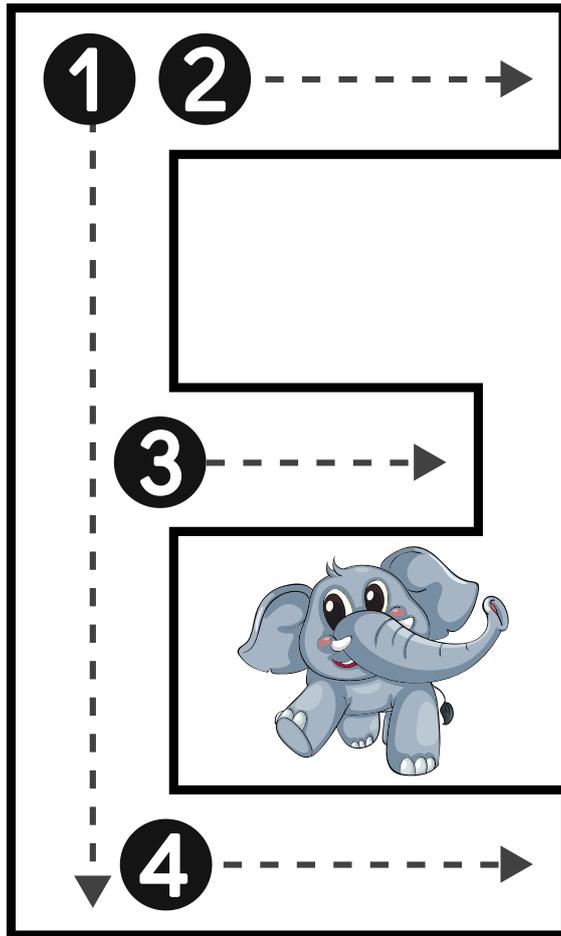

Además llevan un dibujo incorporado para iniciar al niño en la clasificación de palabras que empiezan por cada una de las letras del alfabeto.

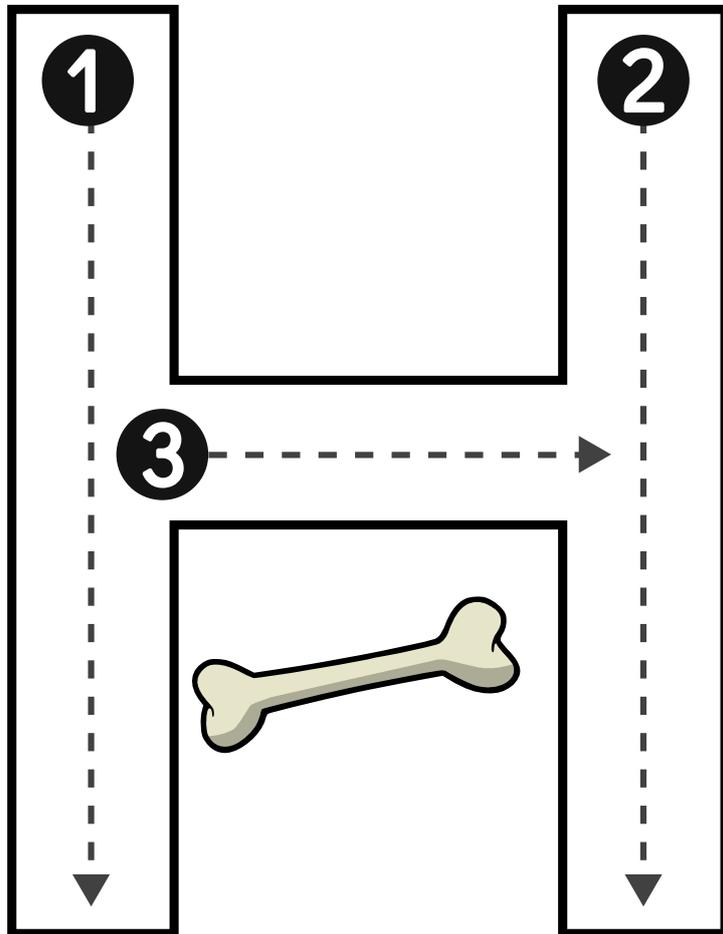

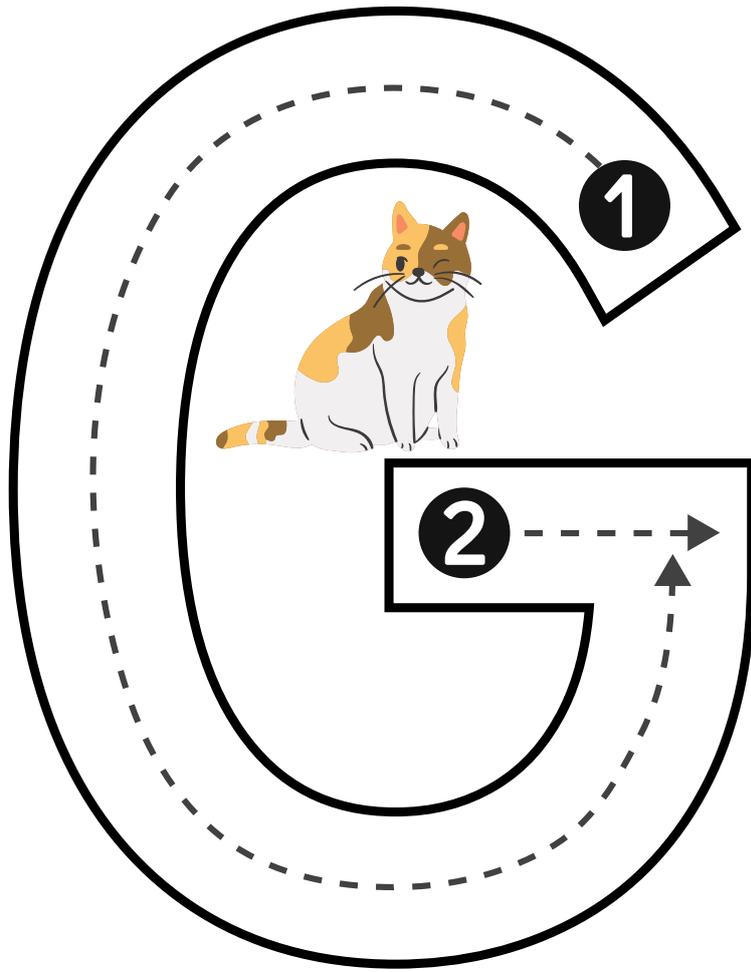

Una abrazo, Marisol
